MEMORANDUM FOR: [REDACTED]

DDP/TRO

SUBJECT : Critique of 14-15 January 1970 Visit

[REDACTED] 25X1A

1. The 14-15 January 1970 trip to [REDACTED] for briefing on 25X1A Agency Training facilities and training courses was of very definite value and well worth the time involved. I was very appreciative of the availability and attendance of the various Training officers at this briefing and with the opportunity to informally meet and discuss training with these officers. One additional "bonus feature" of this orientation trip was the opportunity to meet with other Agency operational officers from other divisions and exchange comments on topics of mutual interest.

2. As a somewhat gratuitous comment, may I add that I am constantly impressed with the outstanding job done by OTR in providing the type of training programs which reflect the professional requirements of this Agency.
